Swartz Center for Theoretical Neuroscience, Harvard

### **PostDoc Position in Neurophysiology**

Applications are invited for a Postdoctoral Position in Neurophysiology in the Kreiman lab. We are looking for an innovative and enthusiastic researcher with a strong quantitative background and experience in Neuroscience research. The post-doc will work in a collaborative and strong academic environment within the Harvard Medical School community. The research efforts will involve neurophysiological recordings to investigate how neuronal circuits perform visual object recognition and memory formation.

To be considered for this position please submit your application including

- CV
- list of publications
- names of three people that are familiar with your work
