Neuroethics

Co-sponsored by the Maclean Center for Medical Ethics, the Grossman Institute for Neuroscience, the Center for Neurobiology and Human Behavior, and the College

The 34th Annual Interdisciplinary Series 2015-2016

Three-Four Years of...

MacLean Center Ethics Seminars

Recent advances in the neurosciences have raised important ethical questions, which provide a fascinating venue for cross-disciplinary discussions. The MacLean Center is dedicated to engaging physicians, scientists, and ethicists in deep social debates. This seminar series promises to be among the most lively and interdisciplinary ever!

In the fall of 1981, the MacLean Center was established to spark an interdisciplinary conversation on ethical issues that arise in the practice of medicine, human behavior, and the sciences. Its first lecture featured a community of faculty and students who were interested in the emerging field of neuroethics. Since then, the MacLean Center has hosted over 100 lectures and discussions, attracting attendees from all over the world. The MacLean Center is now ready to celebrate its 34th year of interdisciplinary dialogue on ethical questions.

OCTOBER 7, 2015 - MAY 18, 2016

WEDNESDAYS, 12:00PM TO 1:30PM

University of Chicago, Pritzker School of Medicine

This seminar series is designed to foster dialogue among experts from various fields, including medicine, neuroscience, and philosophy. The seminars will cover a wide range of topics, including organ transplantation, pediatric ethics, global health, and health care disparities. The series will be hosted by Dr. Daniel Sulmasy, Associate Director of the MacLean Center.

The seminar series will feature a diverse group of faculty members from the University of Chicago, including:

- Daniel Sulmasy, MD, PhD, Professor of Neurology and Pediatrics
- Jonathan Lear, PhD, Lindy Bergman Distinguished Service Professor of Philosophy
- John Maunsell, PhD, Albert D. Lasker Professor in Neurobiology
- Marc Berman, PhD, Assistant Professor of Psychology
- Marjorie and Robert E. Straus Professor of Neurology
- Ralph Cannon, Professor of Surgery
- David Frim, MD, PhD, Ralph Cannon Professor of Surgery
- Jonathan Masur, JD, Professor of History, the Conceptual and Historical Studies of Science, and the College

The seminar series will also be co-sponsored by the Grossman Institute for Neuroscience, the Center for Neurobiology and Human Behavior, and the College. The seminars are open to the public, and attendance is free. To register for MacLean Center events, please visit MacLeanCenter.eventbrite.com.

To learn more about the MacLean Center, please visit http://macleanethics.uchicago.edu.

To follow the MacLean Center on Twitter, please visit @MacLeanCenter.

Note: Continuing education credit is available for physicians and nurses. The University of Chicago Pritzker School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The workshop will cover a broad range of topics, including the ethical aspects of one key health related issue. Previous topics have included: Organ Transplantation, Pediatric Ethics, Global Health, Health Care Disparities, Medical Professionalism, and Cognitive Enhancement. To secure your spot at the lectures and to help fund the seminar series, please visit MacLeanCenter.eventbrite.com.

St. Chicago IL 60637
